

Mounting instruction for self adhesive wallpapers

Printouts

Unpack rolled printouts and make sure that received product is correct. Check if it is not damaged, defective, if the size is correct etc.

Recommended

A help of another person during sizing is invaluable. Draw vertical lines on the wall where edges of wallpaper should be placed.

Every self adhesive wallpaper (vinyl) produced by our company goes through a quality check point where the measurements and quality of the picture is being checked. It is very important that you do NOT start hanging the vinyl onto the wall, before you check that the image and panels fit. To do so please place the vinyl on clean and dry surface (floor).

This will give you an exact idea on how to start hanging the wallpaper.

Wall preparation and mounting instruction

1. Prepare your wall - the wall should be free of loose paper or paint. It should be reasonably flat and clean. If the wall is dry seal it first with a coat paste prior to hanging (priming process which increases adhesion of the wallpaper to the wall).
2. Remember that you do not need any paste or glue to mount the vinyl on your wall. It is self adhesive.
3. Hang panels from top to bottom and brush using a paper hanging brush or damp sponge.
4. Hang the rest of the wallpaper, in the same manner that you hung the first section.

Please ensure that you apply all panels with the same manner to ensure perfect match.

ATTENTION !

It is self adhesive vinyl. Although we use only highest quality materials please remember to treat them with special care (don't stretch or tighten it too much), as it is easy to damage the product or make a hole.

Please note

Rainbow Zoom takes responsibility for the delivery of correct product, for the print quality and correct dimensions of the product provided by a customer during ordering process.

Rainbow Zoom does not take any responsibility for damages or defects occurred during unpacking, pasting or unprofessional installation of the product.

Thank you for shopping at www.rainbowzoom.eu

If possible, we would appreciate if you could send us a picture of the final effect when your product has been mounted on your wall as we would like to add it to our portfolio. Please send an image to:

office@rainbowzoom.eu

Thank you.
